

COMPANY BACKGROUND

I INTRODUCTION

WONS is a Bhutanese IT company that was established in 2023 by a local entrepreneur to meet the growing demand for high-quality technology solutions in the country. The company is committed to empowering individuals, organizations, and the nation through innovative and effective IT services such as software development, website development, mobile app development, IT consulting, and IT training. WONS has a dynamic, energetic, and collaborative corporate culture that fosters innovation, teamwork, and customer satisfaction. The company's competitive edge lies in its ability to provide tailored IT solutions that are personalized to the unique needs of its clients. WONS has an impressive track record of delivering reliable and cost-effective IT solutions to a diverse clientele, which includes businesses, government agencies, non-profit organizations, and individuals in Bhutan and beyond. The company is constantly exploring new opportunities to expand its services and capabilities while staying at the forefront of emerging technologies and trends.

2 ESTABLISHMENT

Licensed under the Ministry of Economic Affairs, Royal Government of Bhutan, WONS established its legal presence on January 11th 2023. The entrepreneur behind, Mr. Phuntsho Gayenden had long been exposed to developing national level systems with close involvement with His Majesty's Secretariat office and Royal Bhutan Police.

3 MISSION

WONS' mission is to deliver innovative and effective technology solutions that empower individuals, organizations, and the nation.

We aim to achieve this by leveraging the latest powerful technology tools and providing personalized, on-demand network services that are tailored to the unique needs of our clients. Our core values of innovation, excellence, teamwork, integrity, and customer satisfaction guide us in all our endeavours.

We strive to be a leading IT company in Bhutan and beyond, constantly seeking new opportunities to expand our services and capabilities while staying at the forefront of emerging technologies and trends.

4 VISION

Web-Enabled On-Demand Network Services aims to provide the latest powerful technology tools to your aid to give you exactly what you want and how you want it.
